Extension of Precision-Recall curve to multi-class

Legend:
- Micro-average precision-recall (AP = 0.87)
- Precision-recall for class 0 (AP = 0.00)
- Precision-recall for class 1 (AP = 0.08)
- Precision-recall for class 2 (AP = 0.99)
- Precision-recall for class 3 (AP = nan)
- Precision-recall for class 4 (AP = nan)
- iso-f1 curves

Axis labels: Precision (y-axis), Recall (x-axis)

iso-f1 curve labels: f1=0.8, f1=0.6, f1=0.4, f1=0.2
